

# THE ARGENTARIO GOLF & WELLNESS RESORT, NESTLED IN NATURE, IS ONE OF TUSCANY'S MOST COMPELLING LUXURY DESTINATIONS

ARGENTARIO  
GOLF & WELLNESS RESORT

Set in an area of outstanding natural beauty on the Monte Argentario promontory in south west Tuscany, the Argentario Golf & Wellness Resort is one of Tuscany's most compelling luxury destinations thanks to its striking design features, its lavish Italian-chic interiors and its extensive spa and wellness centre that provides nourishment to body and soul and an unforgettable holiday.

With summer on the horizon, the ecological Resort is looking forward to welcoming discerning travellers that venture to the relatively undiscovered region of the Maremma to treat themselves to a stay of the utmost luxury and relaxation surrounded by stunning land and seascapes.

This 5-star hotel, designed to resemble a giant dragonfly from

above, offers all the old-world glamour and seductive charm of a private Tuscan hideaway and more. Its sleek, modern look with statement features, such as the expansive reception with its commanding white spiral staircase throughout the backbone of the property and its gigantic floor-to-ceiling windows, make for a memorable arrival at the Resort.

Once ensconced in this haven of tranquility tucked away in the Maremma, the state-of-the-art amenities, restaurants, spa and wellness centre and exceptional personal service combine to create the ultimate place to relax and unwind in beautiful, aesthetic surroundings.

The property's 73 rooms and suites offer restful retreats that are wonderfully appointed using local organic materials and elegant furnishings curated by Milan-based interior designer, Andrea Fogli. All come with individual wooden terraces overlooking a natural scape of land and sea that ensure total privacy.

Set in over 70 hectares of nature reserve, the Resort is also home to an opulent collection of bespoke villas that are ideal for those seeking unparalleled privacy (the residences are accessible only by private buggy) and tranquillity whilst at the same immersing oneself in the flora and fauna of the Mediterranean.

The independent villas blend seamlessly into the landscape whilst also offering mesmerising panoramic views of the Orbetello Lagoon, Talamone Bay, the golf course and local polo club. The spacious, open plan properties feature achingly stylish interior

furnishings and striking design whilst the exterior wooden decks provide the allure of al fresco living, with loungers, hot tubs and barbecues.

The latest addition to the collection, the exquisite Maremma Cottage - Lagoon Bay, exudes elegance and sophistication and has a well thought out layout designed to cater to every guest's needs. The villa has a lavish living room with an ethanol fireplace, whilst

the dining area invites you to prepare delicious meals in the fully equipped kitchen that features stylish Italian furniture and the latest appliances. On the accommodation side, the villa is home to a stunning master bedroom with a sumptuous king-sized bed, hot tub, and Turkish bath, and three additional bedrooms all come with en-suite bathrooms.

Other villa options include the five-bedroomed Hills Lodge, perched on a hilltop, which lends itself perfectly to engaging oneself with the serenity of the surroundings. Styled with the finest contemporary details and marine accents of the Silver Coast, this spacious villa is a sanctuary of peace and privacy.

Elevating the quintessential Tuscan country house to new heights of sophistication is the three-bedroomed Locker Cottage, which is set amidst a sprawling 2,230m<sup>2</sup> garden, rich in olive trees, lavender, rosemary and a host of other Mediterranean plants.

Two additional types of Maremma Cottages - Olive Trees and Horse

Track - each offer a unique interior design theme to captivate the senses and reflect the environment. They, too, have three bedrooms and large decked terraces with loungers and outdoor hot tubs.

Each villa rental includes a VIP welcome, daily buffet breakfast, access to the spa and wellness facility and personalised concierge

services. Guests can also enjoy the convenience of daily housekeeping, 24/7 security, and a range of amenities designed to ensure their stay gives unparalleled heights of indulgence. Other services are provided upon request, from private chef services to wellness treatments, in the comfort of your villa.

Away from the villas, guests can unwind around one of the hotel's two swimming pools (either the heated indoor pool with saline water or the outdoor pool) by the 2,700 m<sup>2</sup> Espace Wellness Centre and MediSPA or, if preferred, get into shape (both body and soul) thanks to a fitness centre with Technogym equipment, bio-sauna with chromotherapy, Kneipp circuit, six massage and treatment cabins and tanning showers plus numerous other services.

In the evening, the relaxation mode continues at Argentario as guests indulge in the tasty specialities of the local environment. The Aper Bar, where in-house cocktail maestro, Giuseppe Calo, serves mouth-watering refreshments created using his own homemade fruit essences and compotes, is the perfect place to enjoy the sunset overlooking the Orbetello Lagoon.

Then it's time to savour the finest local wines and fine dining cuisine, created by local chef Emiliano Lombardelli, that is served in the stylish Dama Dama Restaurant, named after the fallow deer that occasionally roam the Resort. His

kitchen is based on the flavours and colours of the nearby terrain with dishes prepared using organic produce from small, carefully selected local farms and local fishermen and, at certain times of the year, directly from the hotel's organic vegetable garden and orchard.

Each dish is carefully presented in a creative and modern fashion, ensuring that supper at the Dama Dama is a captivating journey through both the local terroir and Mediterranean cuisine; a sensory experience that excites the palate

and takes you to the heart of gastronomic delight.

For more casual dining, there is the option of healthy Mediterranean dishes, again with local influences, on offer in the comfortable Club House Restaurant and its spacious wooden terrace overlooking the 9th green of the golf course and beyond. Both restaurants have an extensive list of fine local terrain and Italian wines to choose from whilst the olive oil on offer at every meal is made from olives harvested annually on the estate.

For those guests looking to explore the Maremma during their stay, the concierges at Argentario are their disposal to organize helicopter tours around the local environs from the on-site heliport at the north of the property as well as arrange yacht and boat rentals for visiting small private coves around the promontory or experiencing some local fishing. Further afield trips to charming hilltop villages, the cultural cities of Florence, Rome and Siena, vineyards for wine tasting and oil mills for olive oil sampling are all easily accessible from the Resort.

For those looking for a more active break alongside some R&R, there are nature walks in the hills, horse riding in the nearby national park and on-site Pirelli e-bikes for hire to explore the quaint fishing towns of Porto Ercole and Porto Santo Stefano and the nearby famous Silver Coast beaches with their crystal clear waters and golden sand.

However there's no real need to venture from the Resort at all if you do not wish to as there are plenty of activities on offer within the confines of the Argentario estate; tennis and padel courts, jogging paths that meander through the golf course and the edge of the forest, a mini football pitch as well as an outdoor fitness station offer a range of opportunities to get the heart thumping.

For golfers, the eco-friendly 18 hole championship course, home to the Italian Open in 2025, offers the chance for a few enjoyable hours walking in and out of natural Mediterranean vegetation on the front nine and ancient olive groves on the inward nine holes, followed off course by an ice cold beer at the 19th hole in the Club House!

This compelling combination of luxury, design, wellness, gastronomy and a stylish slice of Italian chic in this undiscovered part of Tuscany make Argentario Golf & Wellness Resort the ideal destination for an unforgettable escape at any time of the year.
